

Signup Page – Documentation

1. Introduction

This document provides a detailed explanation of the Signup Page structure and styling.

The page is built using HTML and CSS and allows new users to create an account by entering required details such as name, email, mobile number, password, and user type.

2. Page Structure Overview

2.1 Head Section

The head section contains:

- Metadata that ensures proper display on all devices
- The title of the page
- Internal CSS used to style all elements on the signup form

2.2 Body Section

The body contains:

- A centered outer box that holds the entire signup form
 - Input fields for user information
 - A dropdown to select user type
 - A button to submit the signup form
 - A message and link for users who already have an account
-

3. Styling Description (CSS)

3.1 Body Styling

- The default font of the entire page is set to Arial.
- The page background is plain white to keep the form clean and simple.

3.2 Outer Box Styling

- The box has a fixed width, keeping the form compact.
- It is centered using auto margins and has spacing from the top.
- Padding inside the box ensures comfortable spacing between elements.
- The background color is white with rounded corners.
- A shadow is added around the box to make it stand out visually.

3.3 Heading Styling

- The heading “Signup” is centered inside the form.
- A purple color is used to highlight the title.
- Space is added below the heading to separate it from the inputs.

3.4 Input Field Styling

- All text fields take full width of the box.
- Padding is applied inside each field to make typing easier.
- Vertical margins separate each input field from the next.
- Light grey borders and rounded corners give modern look.
- Fields include placeholders to guide the user.

3.5 Dropdown (User Type) Styling

- The dropdown is centered inside the box.
- It has a width smaller than input fields to distinguish it visually.
- Padding and rounded corners are added for comfort and appearance.

- Space is included above and below to align it properly with other fields.

3.6 Button Styling

- The button is full width, making it easy to tap on mobile devices.
- It uses a pale pink background with black text.
- Rounded corners give it a smooth appearance.
- When hovered, the background color becomes a lighter pink to show interactivity.
- The button uses a pointer cursor to indicate it's clickable.

3.7 Text and Link Styling

- The message “Already have an account?” is centered.
 - Below it, a login link is centered and styled in blue to indicate navigation.
 - The link is displayed as its own block to maintain spacing and alignment.
-

4. Content Description

4.1 Full Name Field

Allows the user to enter their complete name.

A placeholder helps guide the user.

4.2 Email Field

Accepts a valid email address.

The field is required to ensure proper user registration.

4.3 Mobile Number Field

Allows the user to enter a mobile number.
The placeholder indicates expected input.

4.4 Password Field

Allows the user to create a password.
The text is visible while typing, helping the user check their input.

4.5 Confirm Password Field

Allows the user to re-enter the password for confirmation.
This ensures the user types the same password correctly.

4.6 User Type Dropdown

Allows the user to choose between “Student” or “Admin.”
The dropdown ensures proper categorization of the user.

4.7 Create Account Button

Submits the user information to create a new account.

4.8 Login Link

A message informs the user that they can log in if they already have an account.

A link redirects the user back to the login page.

5. Summary

The Signup Page provides a clean and user-friendly interface for new users to register.

It collects essential information and uses modern styling with rounded

corners, spacing, and shadow effects.
The layout is simple, responsive, and easy to understand.

The screenshot shows a web browser window titled "Signup Page". The address bar displays the URL "127.0.0.1:5500/signup.html". The main content is a "Signup" form card with rounded corners and a drop shadow. The form fields include:

- Full name**: An input field labeled "Enter Full Name".
- Email**: An input field labeled "Email Address".
- Mobile Number**: An input field labeled "mobile Number".
- Password**: An input field labeled "password".
- Confirm Password**: An input field labeled "Confirm Password".
- Select User Type**: A dropdown menu labeled "Select User Type".
- Create Account**: A pink button labeled "Create Account".

Below the form, there is a link "Already have an account? [Login](#)".
