

## Step 3 – Education Details Form

---

### 1. Title

Education Details Form (Step 3)

---

### 2. Purpose

- To take student education information.
  - To collect Graduation, HSC, and SSC details.
  - To move the user to the next page of the form.
- 

### 3. Description

- The page shows an **Education Details** section.
  - Three education levels are displayed:
    - Graduation
    - HSC
    - SSC
  - Each level has:
    - Name
    - Percentage
    - Passing Year
  - A **Next** button is provided to go to the next page.
- 

### 4. Technology Used

- HTML
  - CSS
- 

### 5. Program Logic

- The form layout is created using <div> tags.

- Inputs are arranged using CSS Flexbox.
  - Full-width inputs are used for names.
  - Two inputs are placed in one row for percentage and year.
  - The button redirects to another HTML page.
- 

## 6. Working

1. Page loads in the browser.
  2. Education fields are displayed.
  3. User enters details.
  4. Clicking **Next** opens the next page.
- 

## 7. Limitation

- Data is not saved.
  - No validation is applied.
  - Used only for layout practice.
- 

## 8. Conclusion

This page creates a simple education details layout using HTML and CSS. It is meant only for designing the form, not for data processing
