

PAGE-5.

Step 5 – Preview Details Page

1. Title

Preview Your Details (Step 5)

2. Purpose

- To show a summary of all entered details.
 - To allow the user to review information before submission.
 - To give options to go back or submit the form.
-

3. Description

- The page displays a **Preview Your Details** section.
 - Summary boxes show different information categories:
 - Personal Information
 - Guardian Details
 - Address Information
 - Education Background
 - Course Details
 - Two actions are provided:
 - **Previous** to go back
 - **Submit** to finish the process
-

4. Technology Used

- HTML
 - CSS
-

5. Program Logic

- The layout is created using `<div>` elements.
 - Summary sections are displayed using styled containers.
 - Flexbox is used to align action buttons.
 - Navigation is handled using links and a submit button.
-

6. Working

1. Page loads in the browser.
 2. All detail sections are displayed as summary boxes.
 3. User reviews the information.
 4. Clicking **Previous** goes to the previous page.
 5. Clicking **Submit** completes the process.
-

7. Limitation

- No actual data is displayed.
 - Submit button has no backend connection.
 - Used only for UI preview.
-

8. Conclusion

This page provides a simple preview layout for reviewing form details using HTML and CSS. It is intended for visual confirmation, not real data submission.
